Others	36,742	17.0	0.0	0.0	0.0	83.0
TOTAL	167,862					
		•				

Numbers on this form are very rough. Before 2008, New Mexico has not been able to derive unduplicated numbers of pregnant women and children served by Title V. As of 2008, New Mexico has implemented the BEHR (Billing and Electronic Health Record) system. The Families FIRST and Children's Medical Services Programs are implementing a new case management software system "ChallengerSoft." WIC data is being analysed. Vital Records and Health Statistics converted to an electronic birth certificate system. All of these in combination should improve the precision in reporting the numbers for this form in the future.

It is not yet possible to get accurate, updated, unduplicated numbers.

FIELD LEVEL NOTES

 Section Number: Form7_Main Field Name: PregWomen_TS Row Name: Pregnant Women Column Name: Title V Total Served

Year: 2010 Field Note:

Pregnant women: The Title V program is the organizational home to NM WIC. The total pregnant women enrolled in WIC was 15,465.

Families FIRST, The High Risk Prenatal Care fund, and providers contracted with Title V funds served a total of 3358 pregnant women.

 Section Number: Form7_Main Field Name: PregWomen_XXI Row Name: Pregnant Women Column Name: Title XXI %

Year: 2010 Field Note:

S-CHIP does not cover prenatal care in NM.

 Section Number: Form7_Main Field Name: Children_0_1_TS Row Name: Infants <1 year of age Column Name: Title V Total Served

Year: 2010 Field Note:

Virtually all babies born in New Mexico are served by Title V through newborn genetic and hearing screening programs. This number is derived from the 2007 births and the percentage of newborns screened each year.

Year: 2010 Field Note:

The estimates of payment are very rough.

FORM 8 DELIVERIES AND INFANTS SERVED BY TITLE V AND ENTITLED TO BENEFITS UNDER TITLE XIX (BY RACE AND ETHNICITY) [Sec. 506(A)(2)(C-D)] STATE: NM

Reporting Year: 2007

I. UNDUPLICATED COUNT BY RACE

	(A) Total All Races	(B) White	(C) Black or African American	(D) American Indian or Native Alaskan	(E) Asian	(F) Native Hawaiian or Other Pacific Islander	(G) More than one race reported	(H) Other and Unknown
DELIVERIES								
Total Deliveries in State	31,254	25,239	644	4,243	113	400	0	615
Title V Served	28,633	23,119	590	3,891	104	366	0	563
Eligible for Title XIX	18,751	15,143	386	2,545	68	240	0	369
INFANTS								
Total Infants in State	26,388	21,705	694	3,535	454	0	0	0
Title V Served	23,805	19,882	636	3,238	49	0	0	0
Eligible for Title XIX	15,832	13,023	416	2,121	272	0	0	0

II. UNDUPLICATED COUNT BY ETHNICITY

				HISPA	ANIC OR LATING	(Sub-categorie	s by country or area o	f origin)
	(A) Total NOT Hispanic or Latino	(B) Total Hispanic or Latino	(C) Ethnicity Not Reported	(B.1) Mexican	(B.2) Cuban	(B.3) Puerto Rican	(B.4) Central and South American	(B.5) Other and Unknown
DELIVERIES								
Total Deliveries in State	13,958	17,111	0	0	0	0	0	185
Title V Served	12,786	15,674	0	0	0	0	0	169
Eligible for Title XIX	8,374	10,266	0	0	0	0	0	111
INFANTS								
Total Infants in State	12,293	14,095	0	0	0	0	0	0
Title V Served	11,211	12,911	0	0	0	0	0	0
Eligible for Title XIX	7,375	8,457	0	0	0	0	0	0

The 2007 number of deliveries in state is provisional.

In Unduplicated Count by Race, "White" is Hispanic and Caucasian combined.

Data discrepancies:

Source of delivery data: NMVRHS 2007 resident births from the Natality Summary. NMVRHS does not record subcategories for Hispanic or Latino.

http://www.health.state.nm.us/pdf/2007%20Vital%20Statistics%20Natality%20Summary.pdf

Source of number of infants in state: UNM BBER 2007 population estimates based on 2000 US Census data.

Source for title XIX eligibilty data: Medicaid MCH Statistical Report for FFY 2008 report request number: AH290363

All but a very small percent of deliveries are served by Title V through newborn screening.

At this time, it is not possible to get an exact count of how many infants in the state are served by Title V. Title V provides either infrastructure through salary support or funding for direct services for the following programs: newborn screening, immunization, high-risk prenatal care fund, families first, the family, infant, toddler program and the maternal and child health epidemiology program. Newborn Genetic Screening program is the most broad reaching and in 2007, 28,640 newborns received a genetic screen. That represents 91.6% of newborns. "Deliveries and Infants Served by Title V" is derived by taking 91.6% of infants/deliveries in each race/ethnicity category. This number will be revised when final 2007 birth data become available.

Efforts are underway to improve the collection, de-duplication and linkage of data to generate an accurate count of number of infants served by Title V.

FORM 10 TITLE V MATERNAL & CHILD HEALTH SERVICES BLOCK GRANT **STATE PROFILE FOR FY 2010** [SEC. 506(A)(1)]

STATE: NM

1. State MCH Administration:

Title V is located in the Family Health Bureau in the Public Health Division in the NM Department of Health. The Title V Director is also the Bureau Chief of the Family Health Bureau. The Family Health Bureau oversees: Special Supplemental Nutrition Program for Women, Infants, and Children (WIC), Family Planning, Children with Special Health Care Needs, Perinatal Case Management/Home Visiting, Maternal Child Health, Maternal Child Health Epidemiology and Part C Care Coordination. School Health, Dental Health, Childhood Injury Prevention and Immunizations are located in other bureaus within the Public Health Division. Close coordination exists with these programs. The SECCS component is housed withing the Maternal Child Health Section of the Bureau. The Family Health Bureau consists of consists of sic sections/programs, and administrative staff who oversee the implementation of preventive services to reproductive aged women, mothers, infants, children, including children and youth with special health care need, and their families. The programs assess the needs of this population, and generate data to influence policy decision making. The services provider range from: 1) Direct safety-net health care services to individuals; 2) Family support services such as transportation, parent to parent support, case management, care coordination, WIC Commodity Supplemental Foods and Farmer's Market, outreach, translation, and health education; 3) Population-based services, such as newborn screening, surveillance, SIDS education and counseling, injury and violence prevention activities, and a marketing campaign to increase positive birth outcomes; and 4) Capacity or infrastructure building services, such as needs assessment, evaluation, planning, policy development, quality assurance, monitoring, training, information systems, and helping in developing systems of care. Several programs fund positions in the District and Local Health Offices to implement these services. The Bureau houses a Medical Director, Bureau Chief, and support staff who work collaboratively to use resources strategically to meet identified needs.

Block Grant Funds		
2. Federal Allocation (Line 1, Form 2)	\$ 4,331,887	
3. Unobligated balance (Line 2, Form 2)	\$ 0	
4. State Funds (Line 3, Form 2)	\$ 3,652,913	
5. Local MCH Funds (Line 4, Form 2)	\$ 0	
6. Other Funds (Line 5, Form 2)	\$ 0	
7. Program Income (Line 6, Form 2)	\$ 0	
8. Total Federal-State Partnership (Line 8, Form 2)	\$ 7,984,800	
9. Most significant providers receiving MCH funds:		Community Medical Providers UNM Hospital
10. Individuals served by the Title V Program (Col. A, Form 7) a. Pregnant Women	18,823	
b. Infants < 1 year old	 28,640	
c. Children 1 to 22 years old	 78,759	
d. CSHCN	4.000	
	 4,898	

- 11. Statewide Initiatives and Partnerships:
- a. Direct Medical Care and Enabling Services:

126 Multi-disciplinary pediatric specialty clinics CYSHCN Medical Care CYSHCN Enabling Services: Care Coordination by 60 social workers for children with special Provision of family centered, community-based, coordinated care including care coordination services, for CYSHCN and facilitate the development of community based systems of services for such children and their families. The NM Title V CYSHCN program is fortunate in that there the provider base serves New Mexico's small population in a geographically large state. Providers and agencies are represented by key players throughout the state, many of whom share the MCH approach to care for CYSHCN. The Title V Program works with Parents Reaching Out, EPICS and Family Voices to assure critical family involvement in decision making and training of providers and families, collaboration regarding transition of CYSHCN, cultural competence issues and ongoing efforts in the state to create a medical home climate. The Title V Program provides 128 multidisciplinary specialty clinics statewide assuring community based specialty care and oversight. The National Center for Cultural Competence assisted districts in planning for district appropriate cultural competence activities. The districts continue this work. With limited funding and increasing costs, the Title V program is now billing for care coordination (case management) for Medicaid clients receiving clinic services. The Title V program will negotiate with the MCO's to increase the breadth of funding to include more than a 2 hour billing per child.

b. Population-Based Services:

Newborn Hearing and Genetic Screening Programs screen over 26, 600 children annually. Experts from families, professions, agencies and UNM participate in the Newborn Hearing Advisory Committee and the Newborn Genetic Advisory Committees thus assuring a statewide effort to provide family-centered, culturally competent, community based, coordinated screening, follow-up and care. The Title V CHYSHCN program has prepared a model for the development of a statewide council to oversee efforts to improve care in all areas. The Title V CYSHCN Program (CMS) works closely with UNM Continuum of Care, the Lend Program, Parents Reaching Out, Family Voices, the Health Systems Bureau, RPHCA funded clinics, 1000 providers, the NM Pediatric Society, the Medicaid/SCHIP Programs, Indian Health Services, Long Term Services and Family Infant Toddler Program.

c. Infrastructure Building Services:

(max 2500 characters)

Surveillance to state on all children with special health care needs. Advocate for support for the infrastructure. Work continues with these partners on the Family Infant Toddler Interagency Coordinating Council, the MCH Collaborative and the Health Transition to meet the MCH model and to increase the participation of key players in addressing MCH initiatives. University operated perinatal outreach clinics, located in Albuquerque, Las Cruces, Alamogordo, Farmington, Taos, and Roswell. These clinics are staffed by

University Maternal-Fetal Medicine sub-specialists (perinatologists). They provide ongoing local patient care and physician consultation. The maternal transport and obstetric referral system provides access to a Maternal-Fetal Medicine sub-specialist 24/7 for telephone consultations. They provide transport of patients requiring intensive management at the University. The University also provides sub-specialist physicians, diabetes educators and clinical nurse educators who travel the state to provide training programs that help to maintain a uniform and ever improving standard of obstetrical care for New Mexicans. High-risk obstetrical programs and case presentations are presented at community hospitals, in which all health care professionals interested in maternal child health may attend.

2008 natality data not yet available.

2. Section Number: Form11_Performance Measure #8

Field Name: PM08 Row Name: Column Name: Year: 2007 Field Note:

2007 Natality data is not yet available.

2007 BBER population estimates are not yet available.

Beginning with the population estimates for 2007, the University of New Mexico Bureau of Business and Economic Research (BBER) updated its estimates of age-specific migration with new data. This change caused a break in continuity between the 2006 and 2007 estimates. Older age groups were affected more than others. For rates calculated from BBER population estimates, any rate differences from 2006 to 2007 must be interpreted with caution, as they may be partly attributable to the change in population estimates used in the rate denominators.

1. Section Number: Form11_Performance Measure #9

Field Name: PM09 Row Name: Column Name: Year: 2008 Field Note:

This is a rough estimate; no surveillance was done in this year. The dental program reported the same level of effort, hence the same estimated level of coverage. This coverage is among children enrolled in schools with a high proportion of children on the free or subsidized meal program

The 2007 National Survey of Children's Health found that 91.6 % of children aged 6-11 had no unmet need for oral health care. 89.2% in that age group had one or more preventive care visits during the past 12 months.

2. Section Number: Form11_Performance Measure #9

Field Name: PM09 Row Name: Column Name: Year: 2007 Field Note:

This is a rough estimate; no surveillance was done in this year. The dental program reported the same level of effort, hence the same estimated level of coverage. This coverage is among children enrolled in schools with a high proportion of children on the free or subsidized meal program

The 2007 National Survey of Children's Health found that 91.6 % of children aged 6-11 had no unmet need for oral health care. 89.2% in that age group had one or more preventive care visits during the past 12 months.

3. Section Number: Form11_Performance Measure #9

Field Name: PM09 Row Name: Column Name: Year: 2006 Field Note:

This is a rough estimate; no surveillance was done in this year. The dental program reported the same level of effort, hence the same estimated level of coverage. This coverage is among children enrolled in schools with a high proportion of children on the free or subsidized meal program

The National Survey of Children's Health found that 78.8% of 6-9 year olds had insurance that pays for routine dental care. 79.0% of 6-9 year olds received all the routine preventive dental care they needed in the past 12 mos. This would mean that roughly 67,150 children age 6-9 goat a sealant. 66% had dental insurance and received all the routine preventive dental care they needed in past 12 mos. 12% did not have dental insurance and received all the routine preventive dental care they needed in past 12 mos. 12% didn't know if their child had dental insurance & received all the routine preventive dental care they needed.

2. Section Number: Form11_Performance Measure #10

Field Name: PM10 Row Name: Column Name: Year: 2007 Field Note: Source:

Numerator: NMVRHS Denominator: BBER

Beginning with the population estimates for 2007, the University of New Mexico Bureau of Business and Economic Research (BBER) updated its estimates of age-specific migration with new data. This change caused a break in continuity between the 2006 and 2007 estimates. Older age groups were affected more than others. For rates calculated from BBER population estimates, any rate differences from 2006 to 2007 must be interpreted with caution, as they may be partly attributable to the change in population estimates used in the rate denominators.

1. Section Number: Form11_Performance Measure #11

Field Name: PM11 Row Name: Column Name: Year: 2008 Field Note:

41.8% is the percent of infants that were fed any breast milk to six months or beyond. This is the result from the 2007 National Immunization Survey of children born in 2005.

CI: 8.4%

The percent of infants from that same cohort that were exclusively breastfed was 37.2% at three months, and 15% at six months.

Healthy People 2010 goals for exclusive breastfeeding are 40% at three months and 17% at six months.

Source: http://www.cdc.gov/breastfeeding/data/NIS_data/data_2004.htm

2. Section Number: Form11_Performance Measure #11

Field Name: PM11 Row Name: Column Name: Year: 2007 Field Note:

41.8% is the percent of mothers that breastfed their infants any breast milk to six months or beyond. This is the result from the 2007 National Immunization Survey of children born in 2005. The number is provisional and the final number will be available in August, 2009.

The provisional percent of mothers that exclusively breastfed their infants, according to this same survey, was 37.2% at three months, and 15.0% at six months. Healthy People 2010 goals for exclusive breastfeeding are 40% at three months and 17% at six months.

Source: http://www.cdc.gov/breastfeeding/data/NIS_data/data_2004.htm

3. Section Number: Form11_Performance Measure #11

Field Name: PM11 Row Name: Column Name: Year: 2006 Field Note:

- 1. Annual indicator is from 2005 National Immunization Survey (NIS) breastfeeding rate for New Mexico.
- 2. The annual performance objective of 70 is from the previous version of the NPM that measured breastfeeding initiation. The objective has been changed to 50; that is the Healthy People 2010 goal for breastfeeding duration at six months.
- 3. Breastfeeding duration rates at six months in New Mexico for previous years were 2003: 39.0 and 2004: 42.2. According to the NIS.

New note for 2006: 44.3% is the percent of mothers that breastfed their infants any breast milk to six months or beyond. This is the result from the 2006 National Immunization Survey of children born in 2004.

Exclusive breastfeeding rates for this same birth cohort were 37.5% at three months and and 17.9% at six months.

FORM 14 LIST OF MCH PRIORITY NEEDS

[Sec. 505(a)(5)]

STATE: NM FY: 2010

Your State's 5-year Needs Assessment should identify the need for preventive and primary care services for pregnant women, mothers, and infants; preventive and primary care services for children and services for Children with Special Health Care Needs. With each year's Block Grant application, provide a list (whether or not the priority needs change) of the top maternal and child health needs in your state. Using simple sentence or phrase ,list below your State's needs. Examples of such statements are: "To reduce the barriers to the delivery of care for pregnant women, " and "The infant mortality rate for minorities should be reduced."

MCHB will capture annually every State's top 7 to 10 priority needs in an information system for comparison, tracking, and reporting purposes; you must list at least 7 and no more than 10. Note that the numbers listed below are for computer tracking only and are not meant to indicate priority order. If your State wishes to report more than 10 priority needs, list additional priority needs in a note at the form level.

- 1. Improve access to and use of health & health related services including health insurance and other coverage such as Medicaid, S-CHIP for all MCH population groups
- 2. Improve the transition from childhood ages to young adulthood for children & youth with special health care needs to assure uninterrupted access to health care and related transition services
- 3. Improve indicators of health in the preconceptional and perinatal periods, including but not limited to smoking, alcohol, folic acid use, family violence, intention of pregnancy, access to and use of health care
- 4. Reduce indicators of violence affecting the MCH population with focus on reducing the number of children withnessing violence, the rate of substantiated child abuse and on reducing the percent of women who report physical abuse before & during pregnancy
- 5. Reduce unintended live births to teens, and the related prevalence of chlamydia among teens
- 6. Promote healthy weight and physical fitness among parents and their children; reduce overweight and obesity in the MCH population with focus on infants, early childhood and adolescents to reduce psychological and chronic disease problems
- 7. Reduce rates of fatal & non-fatal unintentional injury among children and teens, with emphasis on interventions regarding injuries in motor vehicular crashes and home-safety practices
- 8. Promote positive youth development experiences with emphasis on building personal & social assets at the family, school and community levels, and with a view to reduce the proportion of youth who engage risk behaviors that often have serious life-long consequences.
- 9. Strengthen the role of males in MCH through promotion of effective initiatives in healthy fatherhood and in reproductive health through male involvement strategies
- 10. Monitor the health of immigrants in the MCH population

FORM 16 STATE PERFORMANCE AND OUTCOME MEASURE DETAIL SHEET STATE: NM

SP	#	1	ı

PERFORMANCE MEASURE:

The number of New Mexico counties and tribal entities implementing positive youth development strategies defined by 6

kev criteria

STATUS:

Active

GOAL

To promote positive youth development, throughout New Mexico

DEFINITION

Numerator

Numerator: Number County and Tribal Community Health Improvement Councils (CHICs) that meet five key criteria for implementing positive youth development. 1-CHIC has identified positive youth development as a priority in its annual plan; 2-CHIC membership includes at least two youth each year; 3-CHIC has at least one staff or contractor that has completed recommended training in positive youth development; 4-CHIC has a plan for at least one science-based intervention in the annual plan; 5- CHIC plan for youth involved youth and approved by youth; 6-CHIC coordinates efforts with School Health Advisory Committee (SHAC).

Denominator:

Denominator Total number of County CHICs and Tribal CHICs in the state.

Units: 6 Text: Scale

HEALTHY PEOPLE 2010 OBJECTIVE

The National Initiative to Improve Adolescent Health by the Year 2010 (NIIAH 2010) has identified 21 Ddefines adolescent health broadly, complementing the traditional focus on categorical health problems and antecedents by concepts of healthy adolescent development and health-promoting environments to provide a proactive foundation for promoting the health and safety of adolescents and young adults. The NIIAHs goal is to foster cooperation amongpartners, including states: its framework seeks new approaches, work with variety partners, sction-oriented perspective on youth development.

DATA SOURCES AND DATA ISSUES

This is not a population-based indicator but rather an indicator of the state program's performance based on 6 criteria. Population-based proxy measures for positive youth development are in the NM Youth Risk Resiliency Survey and for youth age 18-24 & adults in the NM Behavioral Risk Factor Surveillance System. This data is available by county, and will be collected every two years based on reports of the 6 criteria; first data available for 2005 report. The measure should show some impact if the assumptions about criteria are related to effectiveness of the program effort.

SIGNIFICANCE

The National Initiative is based on a comprehensive approach which recognizes that seemingly isolated adolescent problems are influenced by common antecedent factors – those that protect and those that can jeopardize health and safety. Youth opportunities and supports are increasingly important in a world of rapidly changing labor markets, rationales for civic engagement, and a growing need to communicate and cooperate across age, ethnic, religious, cultural, and gender boundaries. Youth who spend time in communities that are rich in developmental opportunities for them experience less risk and show evidence of higher rates of positive development. Diverse program opportunities are more likely to support broad adolescent development and attract the interest of and meet the needs of a greater number of youth. Cultural groups vary in what characteristics they most value for their youth and adults. Core human needs that researchers agree are universal include the need to feel competent, to be socially connected, to feel valued and respected, to actually be making a difference in one's social group, to feel that one has some control over one's own behaviors and experiences, and to have one's physical and emotional needs met. Social assets include: caring and compassion; character; competence in academic, social, and vocational arenas; confidence; connections.

PERFORMANCE MEASURE: Percent of first newborns/moms receiving support services/parenting through community home visiting/support programs

STATUS:

Active

GOAL The development of a state-wide system of family support which promotes optimal infant & child development and well

being.

DEFINITIONThe proportion of new mothers who report home visiting or other support services before delivery and after delivery is

reported in NM PRAMS.

Numerator:

Numerator: Number of first newborns/moms receiving HV or support services

Denominator:

Denominator: Total number of first births annually (by county) & for state

Units: 100 Text: percent

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

SIGNIFICANCE

PRAMS and Families First data for #1; would have to explore if there are existing data bases or develop for #2.

In today's world there are increasing challenges of parenting and providing stable family life as demonstrated by the following: changes in family structure--increase in teen & single parents and those not prepared to parent their children; increased divorced rate, children spending less time with their parents and more children living in foster homes; increased

exposure to violence through media; increasing number of children living in poverty

PERFORMANCE MEASURE: Reduce unintended pregnancy in New Mexico to less than 30% of births

STATUS: Active

GOAL To improve maternal and infant health by reducing unintended pregnancy in New Mexico to less than 30% of live births.

DEFINITIONUnintended pregnancies are those that a mother reported as not wanted or wanted later; Intended pregnancies are those a

mother reported as wanted then or sooner.

Numerator

Number of mistimed and unwanted births from NM PRAMS

Denominator:

Number of NM Resident Births
Units: 100 Text: percent

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES NM PRAMS: 1997 is our first year of data; data will be ready for analysis in November 1998. Vital records for 1997 closed in

July 1998; data are weighted by CDC PRAMS, accounting for factors in the sample frame, response rates per stratum, and response rate per question. Henceforth, data for each year will be produced the winter of the following year, 1998 data in

November 1999 and so on.

SIGNIFICANCE Unintended pregnancy is associated with demographic characteristics of teen ages, single women/men, lower education

and income levels in women and men; maternal health problems of poor access to family planning services, late prenatal care, smoking, family violence and other family stressors; infant outcomes of low birth weight, late or no infant health care

including imunizations.

PERFORMANCE MEASURE: Reduce the number of children witnessing violence (exposed to domestic or sexual violence) as expressed by percent of

children present at a domestic violence scene.

STATUS: A

GOAL Reduce the number of children witnessing violence (exposed to domestic violence or sexual violence).

DEFINITIONThe percent of children who were present at a domestic violence scene as reported by law enforcement.

Numerator

The number of children present at a domestic violence scene as reported by law enforcement.

Denominator:

The number of domestic violence police reports

Units: 100 Text: Percent

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES UCR data has its own limitations, mainly limited reporting by local law enforcement jurisdictions, and limited disclosure by

the victims themselves. We hope to get a better measure developed that includes DV shelter and rape crisis center data. Because of a large degree of under reporting, these sources represent only a portion of the violence experienced by

children. There is no direct measure of children witnessing domestic violence.

SIGNIFICANCE Many children and young adults are exposed to domestic violence in the home or experience some form of sexual violence

from people they know. There is increasing documentation about the adverse effects, including increased substance abuse, teen pregnancy, truancy, suicidal behaviors, eating disorders and aggressive acting out behaviors. There is a profound lack of mental health infrastructure to deal with these exposures, high prevalence of domestic violence in our society and significant lack of protective skills in avoiding acquaintance rape. We are using the rape rate as an index at the present time because it is accurate, can be tracked, and there is a clear correlation between children who witness violence and the

propensity to engage in violent acts including rape as they get older.

PERFORMANCE MEASURE: Increase the proportion of women who report having all six criteria of the NM Healthy Birth Index

STATUS: Ad

GOAL To improve the health and well being of new mothers and infants by promoting healthy behaviors among expectant parents

in New Mexico.

DEFINITIONThe percent of new mothers for whom 1) the pregnancy was intended; 2) no binge or heavy drinking; 3) no smoking: 4) no

physical abuse by husband or partner during pregnancy; 5) awareness & use of folic acid; and 6) entered prenatal care in

first trimester.

Numerator:

The number of new mothers for whom 1) the pregnancy was intended; 2) no binge or heavy drinking; 3) no smoking: 4) no physical abuse by husband or partner during pregnancy; 5) awareness & use of folic acid; and 6) entered prenatal care in

first trimester. BAsed on NM PRAMS, representative sample

Denominator:

The number of live births. Derived from sample statistics, NM PRAMS

Units: 100 Text: Percent

HEALTHY PEOPLE 2010 OBJECTIVE HP 9-1: Increase the number of intended pregnancies to 70%

HP 16-17: Increase abstinence by pregnant women from alcohol to 94%, tobacco to 99%; HP27-6: Increase smoking cessation from 14-30%. Related Objective: 15-34: Reduce the rate of physical assault by current or former intimate partners. HP 16-16 Increase pregnancies begun with optimum folic acid levels from 21% to 80%. HP16-6: Increase first

trimester care from 83-90%

DATA SOURCES AND DATA ISSUESThis data is collected by the Pregnancy Risk Assessment Monitoring System, it is a core question for all PRAMS states.

There may be under-reporting due to the nature of the question

SIGNIFICANCE Elements of the healthy birth index have potential for a highly positive impact on maternal and infant health, well-being and

utcomes.

PERFORMANCE MEASURE: Reduce the proportion of women who report being physically abused by husband or partner during pregnancy.

STATUS: Activ

GOAL To improve the health and well being of new mothers and to reduce family violence and the risk of children being exposed

to family violence.

DEFINITION Rate: Weighted percent of women who report physical abuse by partner in pregnancy from PRAMS surveillanc

Numerator:

Numerator: Number women abused is an estimate derived from PRAMS surveillanc

Denominator:

Denominator Population of live births, estimate derived from PRAMS surveillance

Units: 100 Text: Percent

HEALTHY PEOPLE 2010 OBJECTIVE See related HP 2010 objectives:

No specific Healthy People 2010 Objective for this age group and gender. Related Objective: 15-34: Reduce the rate of physical assault by current or former intimate partners. Target 3.3 physical assaults per 1,000 persons age 12 and older. Bseleine was 4.4 in 1998. Disparities reported: rate for females was 7.2 per 1,000 females; males 1.3 per 1,000 males.

DATA SOURCES AND DATA ISSUES

This data is collected by the Pregnancy Risk Assessment Monitoring System, it is a core question for all PRAMS states.

There may be under-reporting due to the nature of the question.

SIGNIFICANCE Prenatal physical abuse of mothers can result in fetal death, early labor, preterm, low birthweight or maternal medical

problems. It is associated with severe emotional distress and threatens healthy family life. Children who are exposed to domestic violence are at increased risk for behavioral difficulties, emotional problems, poor academic performance,

delinquency and impaired health during adulthood

PERFORMANCE MEASURE: Increase the proportion of women who deliver a live infant who are reported to have been screened for syphilis during

pregnancy. Active

STATUS:

GOAL To assure that all pregnant women are screened for syphilis during their pregnancy.

DEFINITION

Numerator:

Numerator: The number of women delivering a live infant in New Mexico that are reported to have been screened for

syphilis.

Denominator:

Denominator: the number of women who deliver a live infant in New Mexico.

Units: 100 Text: Percent

HEALTHY PEOPLE 2010 OBJECTIVE

Related to Objectives 16.6: Increase the proportion of pregnant women who receive early and adequate prenatal care.

Related to Objectives 16.14: Reduce the occurrence of developmental disabilities.

DATA SOURCES AND DATA ISSUES

New Mexico Birth File from the Bureau of Vital Records and Health Statistics.

SIGNIFICANCE

Screening all pregnant women for syphilis is recommended by the US Preventive Services Task Force in order to decrease the number of infants with clinical manifestation of congenital syphilis. Congenital syphilis infection results in fetal or perinatal death in 40% of affected pregnancies, as well as disease complications in surviving newborns, including central

nervous system abnormalities; deafness; multiple skin, bone, and joint deformities; and hematological disorders.

2008 data not yet available.

2. Section Number: Form17_Health Systems Capacity Indicator #07A

Field Name: HSC07A Row Name: Column Name: Year: 2007

Year: 2007 Field Note:

Denominator: 43% of children, ages 1-20 in 2007 (579,589). Number of children is estimated by Bureau of Business and Economic Research; BBER does not provide projections for individual ages past 20. 43% is the estimated percentage of children living at or below 200% FPL.

Numerator: Source: NM Medicaid Office. Data from October 1, 20056- September 30, 2007. Medicaid report number AH290363 The number of medicaid children age 1-20, that are recipients of service.

Note on BBER data: Beginning with the population estimates for 2007, the University of New Mexico Bureau of Business and Economic Research (BBER) updated its estimates of age-specific migration with new data. This change caused a break in continuity between the 2006 and 2007 estimates. Older age groups were affected more than others. For rates calculated from BBER population estimates, any rate differences from 2006 to 2007 must be interpreted with caution, as they may be partly attributable to the change in population estimates used in the rate denominators.

3. Section Number: Form17_Health Systems Capacity Indicator #07A

Field Level Notes

1. Section Number: Form17_Health Systems Capacity Indicator #08

Field Name: HSC08 Row Name: Column Name: Year: 2008 Field Note:

7,323 children under 16 received SSI benefits in 2008. The Children's Medical Services Program (CMS) is transitioning to a new data system, and the number of CMS clients that are also SSI beneficiaries is not currently available.

2. Section Number: Form17_Health Systems Capacity Indicator #08

Field Name: HSC08 Row Name: Column Name: Year: 2007 Field Note:

Denominator Source:

http://www.ssa.gov/policy/docs/statcomps/ssi_sc/2007/nm.pdf

The Children's Medical Services Program (CMS) is transitioning to a new data system, and the number of CMS clients that are also SSI beneficiaries is not currently available.

3. Section Number: Form17_Health Systems Capacity Indicator #08

Field Name: HSC08 Row Name: Column Name: Year: 2006 Field Note:

This is a very rough estimate. NM Social Security Administration doesn't enumerate by age, only by over or under 18. Children covered by the CMS CYSHCN Program do not qualify for SSI because they are immigrants. For the children and youth served by the CMS program, those on SSA are Medicaid clients who receive only care coordination from the program.

HSI #09B - Demographics (Miscellaneous Data) Infants and children aged 0 through 19 years in miscellaneous situations or enrolled in various State programs enumerated by ethnicity. (Demographics)

CATEGORY Miscellaneous Data BY HISPANIC ETHNICITY	Total NOT Hispanic or Latino	Total Hispanic or Latino	Ethnicity Not Reported	Specific Reporting Year
All children 0 through 19	278,047	295,121	0	2007
Percent in household headed by single parent	27.7	22.8	0.0	2007
Percent in TANF (Grant) families	2.6	5.9	0.0	2008
Number enrolled in Medicaid	120,603	176,548	7,126	2008
Number enrolled in SCHIP	6,648	9,017	24	2008
Number living in foster home care	1,055	1,569	81	2007
Number enrolled in food stamp program	83,033	53,760	0	2008
Number enrolled in WIC	14,831	55,400	140	2008
Rate (per 100,000) of juvenile crime arrests	8,694.0	15,160.0	303.0	2008
Percentage of high school drop-outs (grade 9 through 12)	28.5	71.4	0.0	2008

HSI #10 - Demographics (Geographic Living Area) Geographic living area for all resident children aged 0 through 19 years old. (Demographics)

Reporting Year: 2007 Is this data from a State Projection? Yes Is this data final or provisional? Final

GEOGRAPHIC LIVING AREAS	TOTAL
Living in metropolitan areas	287,332
Living in urban areas	167,804
Living in rural areas	358,298
Living in frontier areas	37,296
Total - all children 0 through 19	563,398

Note:

The Total will be determined by adding reported numbers for urban, rural and frontier areas.

FORM 21 HEALTH STATUS INDICATORS DEMOGRAPHIC DATA STATE: NM

HSI #11 - Demographics (Poverty Levels) Percent of the State population at various levels of the federal poverty level. (Demographics)

Reporting Year: 2007 Is this data from a State Projection? Yes Is this data final or provisional? Final

POVERTY LEVELS	TOTAL
Total Population	2,010,787.0
Percent Below: 50% of poverty	7.3
100% of poverty	23.0
200% of poverty	38.7

FORM 21 HEALTH STATUS INDICATORS DEMOGRAPHIC DATA STATE: NM

HSI #12 - Demographics (Poverty Levels) Percent of the State population aged 0 through 19 at various levels of the federal poverty level. (Demographics)
Reporting Year: 2007 Is this data from a State Projection? Yes Is this data final or provisional? Provisional

POVERTY LEVELS	TOTAL
Children 0 through 19 years old	573,168.0
Percent Below: 50% of poverty	10.7
100% of poverty	27.7
200% of poverty	23.4

FORM NOTES FOR FORM 21

IMPORTANT NOTE REGARDING BBER POPULATION DATA: Beginning with the population estimates for 2007, the University of New Mexico Bureau of Business and Economic Research (BBER) updated its estimates of age-specific migration with new data. This change caused a break in continuity between the 2006 and 2007 estimates. Older age groups were affected more than others. For rates calculated from BBER population estimates, any rate differences from 2006 to 2007 must be interpreted with caution, as they may be partly attributable to the change in population estimates used in the rate denominators.

For Infants and Children Enumerated by race: BBER does not distinguish between "Asian" and "Native Hawaiian or Other Pacific Islander" in its projections. It also does not provide information on "More than one race reported" or "Other and Unknown."

For Infants and Children enumerated by ethnicity: BBER does not provide projections of "Ethnicity Not Reported."

Infant and Child mortality data source: NM Vital Records and Health Statistics data analyzed by MCH Epidemiology Program.

For live births by race:

a. "Asian" is Chinese, Japanese and Filipino.

b. The total live births does not include 5 births to White/Caucasian women, and 2 births to American Indian/Native Alaskan women whose ages were unknown. The true total of live births is 31254.

3. For live births by ethnicity:

Ages were unknown for 6 non-hispanic women and 1 hispanic woman.

For number of children enrolled in WIC: Data Note for title V MCH: These are calendar year 2008 WIC data for clients who were actually seen in 2008 in contrast to those who had a certification period that began, ended or continued in 2008 but who may not have been seen. There were an additional 10,970 who had an active certification but who were not seen; these include children who reached 5th birthday, moved or dropped out of WIC. There is an under-count of infants who were born in November and December 2008 due to unresolved issues in the programming to abstract records from the WIC system. It's estimated that the undercount was on the order of 1500 infants. This under-count has been present in all previous years as well; and will be resolved in the coming year.

Source for povety-level: 2007 National Survey of Children's Health. It is of children ages 0-17.

FIELD LEVEL NOTES

Section Number: Form21_Indicator 09A
 Field Name: HSIRace_SingleParentPercent

Row Name: Percent in household headed by single parent

Column Name: Year: 2010 Field Note:

Source: National Survey of Children's Health http://nschdata.org/DataQuery/DataQueryResults.aspx

Percent of children in "Mother-only household with no father of any type present."

"White" is White and Hispanic, all other races are non-Hispanic.

Non-Hispanic Asian, AINA, Native Hawaiian, or Pacific Islander are grouped by NSCH as "Other" because of small samples sizes.

2. Section Number: Form21_Indicator 09A Field Name: HSIRace_TANFPercent Row Name: Percent in TANF (Grant) families

Column Name: Year: 2010

The number by race of TANF children is estimated based on the percent by race of head of houshold in TANF families. That number is the numerator and BBER data is the

For example: TANF reports that 90% of its head of household recipients are White. There were 25,136 TANF children. 90% of 25136 = 22622 White child recipients. BBER estimates that there are a total of 459,634 White children ages 0-19. 22,622 is 4.9% of 459,634, therefore 5% of White children are in TANF families.

3. Section Number: Form21_Indicator 09A Field Name: HSIRace_MedicaidNo

Row Name: Number enrolled in Medicaid Column Name: Year: 2010 Field Note:

Source: Medicaid Report number AH290363 FFY08

Medicaid report combines "Asian" and "Native Hawiian/Other Pacific Islander, " and also combines "More than one race reported" and "Other and Unknown."

 Section Number: Form21_Indicator 09A Field Name: HSIRace_SCHIPNo Row Name: Number enrolled in SCHIP

Column Name: Year: 2010 Field Note:

Source: Medicaid Report number AH290363 FFY08

Medicaid report combines "Asian" and "Native Hawiian/Other Pacific Islander, " and also combines "More than one race reported" and "Other and Unknown."

 Section Number: Form21_Indicator 09A Field Name: HSIRace_FoodStampNo

Row Name: Number enrolled in food stamp program

Column Name: Year: 2010 Field Note:

Food Stamp information is reported in percentages. Numbers are estimated based on race of head of household food stamp recipients. For example: It was reported that 84.2% of Food Stamp recipient heads of household were White. There were 136,794 individual child recipients of Food Stamps. 84.2% of 136,794 = 115,180 White child Food Stamp recipients.

6. Section Number: Form21_Indicator 09A Field Name: HSIRace_WICNo Row Name: Number enrolled in WIC

Column Name:

Year: 2010 Field Note:

For number of children enrolled in WIC: Data Note for title V MCH: These are calendar year 2008 WIC data for clients who were actually seen in 2008 in contrast to those who had a certification period that began, ended or continued in 2008 but who may not have been seen. There were an additional 10,970 who had an active certification but who were not seen; these include children who reached 5th birthday, moved or dropped out of WIC. There is an under-count of infants who were born in November and December 2008 due to unresolved issues in the programming to abstract records from the WIC system. It's estimated that the undercount was on the order of 1500 infants. This under-count has been present in all previous years as well; and will be resolved in the coming year.

 Section Number: Form21_Indicator 09A Field Name: HSIRace_JuvenileCrimeRate

Row Name: Rate (per 100,000) of juvenile crime arrests

Column Name: Year: 2010 Field Note:

Hispanic and White are combined.

8. Section Number: Form21_Indicator 09A
Field Name: HSIRace_DropOutPercent

Row Name: Percentage of high school drop-outs (grade 9 through 12)

Column Name: Year: 2010 Field Note:

HIgh School dropout numbers: (First number is percent of enrollees that dropped out, subsequent numbers should be read as "percent of dropouts that were X race")

White = 3715 Black = 143 AINA = 1149

Asian/Native Hawaiian/Other Pacific Islander = 40

Total dropouts = 4507

Total Enrollment 2006-2007 was 100,134 for grades 9-12 (2007-2008 total enrollment numbers not available at this time.

Department of Education did not report "More than one race" or "Other and Unknown"

9. Section Number: Form21_Indicator 09B Field Name: HSIEthnicity_WICNo Row Name: Number enrolled in WIC

Column Name: Year: 2010 Field Note:

For number of children enrolled in WIC: Data Note for title V MCH: These are calendar year 2008 WIC data for clients who were actually seen in 2008 in contrast to those who had a certification period that began, ended or continued in 2008 but who may not have been seen. There were an additional 10,970 who had an active certification but who were not seen; these include children who reached 5th birthday, moved or dropped out of WIC. There is an under-count of infants who were born in November and December 2008 due to unresolved issues in the programming to abstract records from the WIC system. It's estimated that the undercount was on the order of 1500 infants. This under-count has been present in all previous years as well; and will be resolved in the coming year.

10. Section Number: Form21_Indicator 09B
Field Name: HSIEthnicity_DropOutPercer

Field Name: HSIEthnicity_DropOutPercent
Row Name: Percentage of high school drop-outs (grade 9 through 12)

Column Name: Year: 2010 Field Note:

28.5 percent of dropouts were not Hispanic, 71.4 percent of dropouts were Hispanic.

11. Section Number: Form21_Indicator 10

Field Name: Metropolitan

Row Name: Living in metropolitan areas

Column Name: Year: 2010 Field Note:

Approximately 51% of children 0-19 live in metropolitan areas in New Mexico.

12. Section Number: Form21_Indicator 10

Field Name: Frontier

Row Name: Living in frontier areas

Column Name: Year: 2010 Field Note:

Frontier includes "Sub-Frontier"

13. Section Number: Form21_Indicator 11

Field Name: S11_100percent Row Name: 100% of poverty

Column Name: Year: 2010 Field Note:

Percent report of below 100% poverty is actually below 125% of poverty.

14. Section Number: Form21_Indicator 09A

Field Name: HSIRace_FosterCare

Row Name: Number living in foster home care

Column Name: Year: 2010 Field Note:

Source: Children Youth and Families Department of New Mexico
